

Please let us govern our own people with regards to our desire not to be called by telemarketers. There is a reason we sign up... we do not want to be randomly solicited in the peace of our homes. We do not want to buy things based on a phone call. I will not buy things based on a phone call... so the telemarketer is not only bothering me, he/she is wasting their own time, money, and efforts!

Instead of giving in to big-money lobbyists, be a man! Take a stand! Model the Federal Law after the one in Wisconsin.... it works! and the people love it.
